How to fold your fortune teller

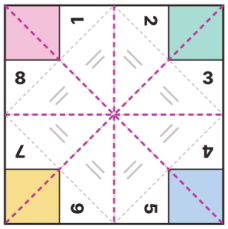

1

Cut out the square

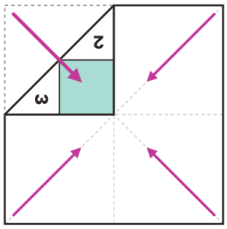

Free blank template? First color the 4 corners and write a fortune in the 8 center triangles.

2

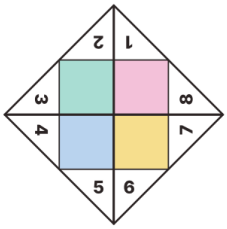

Crease in half and corner to corner, then unfold

3

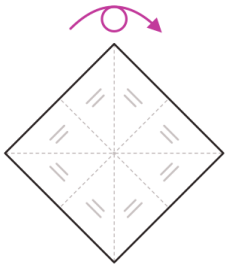

Printed side down: fold each of the 4 corners to the center

4

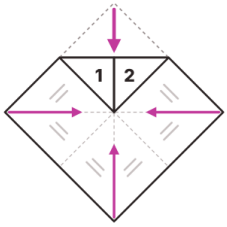

All 4 corners folded in: colors and numbers show

5

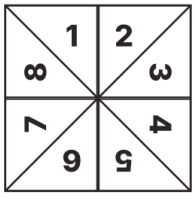

Turn it over: the fortunes show

6

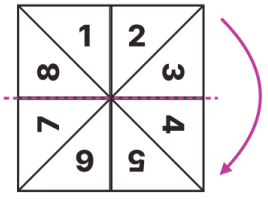

Fold each of the 4 corners to the center again

7

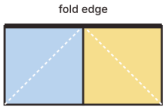

All 4 corners folded in again: numbers show

8

Fold it in half so the numbers end up inside

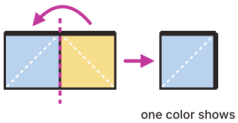

9

Numbers are on the inside

Press the fold flat: only two colors show

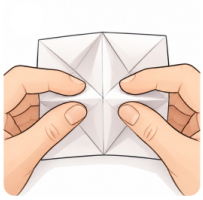

10

Crease it well, then unfold back to two squares

Fold in half again to make a crease, then unfold

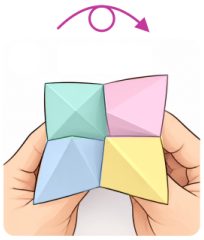

11

Push your fingertips into the 4 pockets

Slide a thumb and pointer finger from each hand under the 4 flaps

12

Pinch the 4 corners together: ready to play!

Flip it over and push the corners up into points

How to play

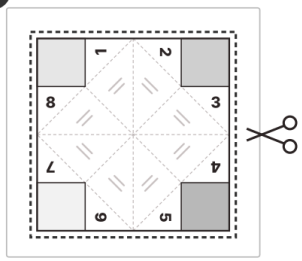

1. Your friend picks a color. Spell it, opening and closing once per letter.
2. They pick a number they can see. Open and close that many times.
3. They pick one more number. Lift that flap and read their fortune!
